**When you need to take your biopharmaceutical
BUSINESS GLOBally**

Press Release

JULY 29, 2005, PHILADELPHIA, PA.

ENTOPHARM CO., SEOUL, SOUTH KOREA APPOINTS GLOBUS CONSULTING SERVICES, INC.

*AS ITS EXCLUSIVE TECHNOLOGY BROKER FOR PROMOTING ITS INNOVATIVE ANTIVIRAL COMPOUNDS
IN THE US AND EU HEALTHCARE MARKETS.*

GloBus Consulting Services, Inc. and a South Korean biotechnology company EntoPharm signed an agreement appointing GloBus Consulting Services as an exclusive agent representing EntoPharm innovative products in the healthcare markets such as USA, EU, South and Central America.

EntoPharm research is focused on a discovery and development of the drug candidates derived from the insects. With its broad research network in Russia and Europe, EntoPharm has discovered several drug candidates with an excellent market potential. Its leading drug Alloferon is currently approved for marketing in Russia for recurrent genital herpes and hepatitis B. Alloferon is EntoPharm's proprietary peptide and the first immunomodulatory agent in the world to be derived from an insect

GloBus will provide EntoPharm with strategic business development, marketing and technology brokerage services to facilitate commercialization of the EntoPharm products in the designated markets.

About GloBus. *GloBus Consulting Services, Inc. a Pennsylvania corporation founded in 2002, provides a variety of services to the pharmaceutical, biotech and API manufacturing companies around the world with a major focus on Russian biotech. "GloBus" stands for "Global Business" as the company's goal is to provide strategic business development services to its clients with no borders in sight and using "out of the box" approach. Strategic business development services involve analysis of the company's capabilities and assets to amplify the opportunities in the areas where the company has a leading edge or define niche markets where the company can succeed due to its unique expertise followed by marketing and technology brokerage services in developing strategic alliance networks, entering new target markets and aligning and executing product or technology in-licensing or out-licensing activities. GloBus offers an array of the innovative biotech products from Russia for in-licensing opportunities.*

About EntoPharm. *EntoPharm is a biopharmaceutical company focusing on the discovery and development of bioactive peptides from insects for therapeutic application as anti-viral, anti-cancer and antibiotic drugs. Headquartered in Seoul, Korea, the company was established in February 2000 to explore the pharmaceutical capability of drug candidates originating from the immune systems of insects.*
