## **Press Release**

*DECEMBER 15, 2006, PHILADELPHIA, PA.*

*GLOBUS CONSULTING SERVICES, INC ANNOUNCES THAT DR. MAHESH PATEL HAS JOINED AS THE VICE PRESIDENT, LICENSING*

Globus Consulting Services, Inc. is proud to announce that Dr. Mahesh Patel has joined the company as a partner and Vice President, Licensing

Dr. Patel has extensive experience in the area of pharmaceutical research and development as well as in project management having spent over 35 years with Schering-Plough Research Institute (SPRI) in Kenilworth New Jersey. While at SPRI Dr. Patel served as both Director of Biological Research and Director of New Technology and Outsourcing specializing in the area of infectious disease and pharmacologically active agents. In these positions, Dr. Patel gained valuable expertise in new drug development, production of recombinant proteins and fermentation processes, isolation and chemical nature of bioactive compounds, and in business management. His later responsibilities included the technical assessment and proactive sourcing of new and ongoing reviews of in-licensing opportunities, ongoing management/overview of priority contracts either with development partners or preferred Contract Research Organizations, general technical and contractual support to Business Development for both licensing and collaboration agreement.

Dr. Patel's significant leadership skills, vast drug development expertise and in-depth knowledge of in-licensing and out-licensing practices will provide GloBus' clients with valuable services and additional benefits.

***About GloBus.*** *GloBus Consulting Services, Inc. a Pennsylvania corporation founded in 2002, provides a variety of services to the pharmaceutical, biotech and API manufacturing companies around the world with a major focus on Russian biotech. "GloBus" stands for "Global Business" as the company's goal is to provide strategic business development services to its clients with no borders in sight and using "out of the box" approach. Strategic business development services involve analysis of the company's capabilities and assets to amplify the opportunities in the areas where the company has a leading edge or define niche markets where the company can succeed due to its unique expertise followed by marketing and technology brokerage services in developing strategic alliance networks, entering new target markets and aligning and executing product or technology in-licensing or out-licensing activities. GloBus offers an array of the innovative biotech products and medical devices from Russia for in-licensing opportunities.*
